Account Overview

Low Balance Settings

The Low Balance Settings area allows you to monitor your child's lunch balance. There are settings to receive notifications via email as well as to automatically replenish the lunch balance with the dollar amount you specify. By enabling this area you agree that, should you elect to take advantage of the automatic replenishment option, you will have sufficient funds in your account to cover the debit, as well as any fees that may be charged in connection with the payment. Please note that a debit may occur on any given day and is controlled entirely by the balance we receive from the school each morning.
